Subject Index to Volume 16

AIDS retrovirus infection, clinical and immunologic sequelae of, 749
AIDS retrovirus, exposure of intravenous drug users to, Sydney, 1985, 686
AIDS virus infection, IgA kappa multiple myeloma and lymphadenopathy syndrome associated with, 402
AIDS virus, heat sterilisation to inactivate, in lyophilised factor VIII (Letter), 413
Admission thyroid function testing in elderly patients, 699
Aldosteronism, primary, due to a malignant ovarian tumour, 69
Ambulatory monitoring and signal-averaged electrocardiography: prevalence of arrhythmias in hypertrophic cardiomyopathy, 666
Anatomical and echocardiographic correlations in the normal heart, 517
Anemia, a 75 year old man with sideroblastic, 249
Anemia, aplastic: analysis of two methods of treatment, 470
Anemia, refractory, response of, to low-dose cytosine arabinoside, 231
Anterior ST segment depression in inferior myocardial infarction: effect on complications and long-term survival, 378
Antigen-antibody complexes, inhibition of complement-mediated solubilisation of, by serum factor(s) in patients with various connective tissue diseases, 445
Antimicrobial susceptibility of urinary tract pathogens: community acquired strains (Letter), 84
Aplastic anemia: analysis of two methods of treatment, 470
Arbovirus infection in a Murray Valley community, 52
Arrhythmias, prevalence of, in hypertrophic cardiomyopathy: role of ambulatory monitoring and signal-averaged electrocardiography, 666
Arthritis, septic, crystal shedding in: case reports and *in vivo* evidence in an animal model, 336
Arthritis, yersinia (Letter), 83

Balloon dilatation, pulmonary valvuloplasty in pulmonary stenosis, 20
Barrett's esophagus: clinical, endoscopic, and histologic spectrum in fifty patients, 198
Bayes' Theorem, application of, in patients with suspected pulmonary embolism and a low probability lung scan, 216
Bile flow, assessment of, by radioscintigraphy in patients with biliary-type pain after cholecystectomy, 788
Biochemical effects, acute, of four proprietary calcium preparations, 193
Bodily habitus and mitral valve prolapse (Letter), 81
Bone marrow transplantation, oral complications of, 239
Bone marrow, non-sibling, depleted of T cells with HuLy-m1, immunological reconstitution in a patient with severe combined immune deficiency using, 385
Boxing and the brain (Letter), 815
Boxing and the brain, 439
Brain abscess due to *Pseudomonas pseudomallei*, 75
Branhamella catarrhalis, a respiratory tract pathogen (Corrigendum), 108
Branhamella catarrhalis, a respiratory tract pathogen (Letter), 718
Branhamella catarrhalis: a respiratory pathogen in children? (Letter), 247
Bruton's X-linked hypogammaglobulinemia, central nervous system echovirus infection in (Letter), 416
Budd-Chiari syndrome: problems in diagnosis and management, 28

Calcium metabolism and osteoporosis in corticosteroid-treated postmenopausal women, 341
Calcium preparations, the acute biochemical effects of four proprietary, 193
Cardiac death, sudden, ventricular arrhythmias, and antiarrhythmic therapy: current trials and tribulations, 409
Cardiac myxomas, myxoid neurofibromata, cutaneous pigmented lesions, and endocrine abnormalities, a familial syndrome of, 393
Cardiomyopathy, hypertrophic, the prevalence of arrhythmias in: role of ambulatory monitoring and signal-averaged electrocardiography, 666
Carotid disease, internal, rapid Doppler screening test for, 481
Carotid sinus hypersensitivity in elderly nursing home patients, 24
Carotid stenosis, asymptomatic: a review, 817
Catecholamine responses to acute myocardial infarction: effect of early administration of sotalol, 658
Cellulose phosphate and chlorothiazide in childhood idiopathic hypercalciuria, 43
Central nervous system echovirus infection in Bruton's X-linked hypogammaglobulinemia, 416
Cerebral aneurysms and the 'missed' hemorrhage, 486
Cerebral venous thrombosis: a retrospective review, 766
Cholecystectomy, assessment of bile flow by radioscintigraphy in patients with biliary-type pain after, 788
Cholesterol, serum, and coronary heart disease: implications of recent intervention studies, 528
Cholylglycine concentration and bromsulphalein retention, serum, comparative sensitivity of, in patients with early and late alcoholic liver disease, 785
Chronic hepatitis: pathogenesis and treatment, 101
Chronic myalgia, a personal approach, 745
Cimetidine and omeprazole, long term management of hemorrhagic esophagitis with, 226
Cimetidine and ranitidine, influence of, on ethanol pharmacokinetics (Letter), 414
Cimetidine treatment, relapse of duodenal ulcers after, (Letter), 246
Clinical and immunologic sequelae of AIDS retrovirus infection, 749
Comparison of the clinical features and illness behaviour of patients presenting with dyspepsia of unknown cause ('essential' dyspepsia) and organic disease, 352
Complement and immune complex diseases, 268
Complications associated with indwelling venous Hickman catheters in patients with hematological disorders, 211
Congenital lobar emphysema requiring surgery in adult life, 501
Connective tissue diseases, inhibition of complement-mediated solubilisation of antigen-antibody complexes by serum factor(s) in patients with various, 445
Connective tissue disorders and the lung, 257
Continuing education and peer review in internal medicine (CEPRIME), 679
Continuous ambulatory peritoneal dialysis, *Mycobacterium gastri* peritonitis in a patient undergoing, 224
Continuous ambulatory peritoneal dialysis, exercise capacity in chronic renal patients managed by, 5
Coronary arteries, near normal, sudden death due to painless spasm in, 64
Coronary artery spasm and migraine, a possible relation between 708
Coronary heart disease and serum cholesterol: implications of recent intervention studies, 528
Coronary stenoses, human, dynamic responses to, 325
Coronary thrombosis, acute, thrombolysis as an effective therapy, 441
Corrigenda, 108
Coumarin skin necrosis without protein C deficiency (Letter), 513
Coxsackie polyarthritis or adult onset Still's disease, 509
Crystal shedding in septic arthritis: case reports and *in vivo* evidence in an animal model, 336
Cystic fibrosis, reproducibility of hyperventilation of cold dry air in children with, 644

Cytophagic panniculitis, 397
Cytosine arabinoside, a phase I-II study of, with daunorubicin and VP16-213 in adult patients with acute non-lymphocytic leukemia, 48
Cytosine arabinoside, low-dose, response of refractory anemia to, 231

Daunorubicin, a phase I-II study of cytosine arabinoside, and VP16-213 in adult patients with acute non-lymphocytic leukemia, 48
Diabetes mellitus, genetics of, 419
Diflunisal-induced neutropenia, 811
Digoxin concentrations, anomalous serum, in patients with hepatic or renal dysfunction, 241
Disseminated histoplasmosis, 66
Doctor's dilemma: some issues concerning medical educators, 87
Doppler screening test, rapid, for internal carotid disease, 481
Duodenal ulcer, drug treatment of: physiological considerations in the choice of therapy, 263
Duodenal ulcers, relapse of, after cimetidine treatment: idol 'indecently' assaulted? (Letter), 246
Dynamic responses of human coronary stenoses, 325
Dyspepsia, comparison of the clinical features and illness behaviour of patients presenting with dyspepsia of unknown cause ('essential' dyspepsia) and organic disease, 352

EC/IC Bypass Study, prejudging the (Letter), 717
Elderly nursing home patients, carotid sinus hypersensitivity in, 24
Emphysema, congenital lobar, requiring surgery in adult life, 501
Enalapril and hydrochlorothiazide, effects of, on blood pressure, renin-angiotensin system, and atrial natriuretic factor in essential hypertension: a double blind factorial cross-over study, 475
Encephalopathy, acute, and death due to petrol sniffing: neuropathological findings, 804
Endocarditis, infective, serological investigations in the diagnosis and management of, 761
Epidemics, two concurrent, of enteroviral meningitis in an obstetric neonatal unit, 365
Epilepsy, treatment of, factors which influence the effectiveness of, 779
Esophagitis, hemorrhagic, long term management of, with cimetidine and omeprazole, 226
Esophagus, Barrett's, clinical, endoscopic, and histologic spectrum in fifty patients, 198
Ethanol pharmacokinetics, influence of cimetidine and ranitidine on (Letter), 414
Evolving role of alpha interferon in the treatment of malignancies, 425
Exercise capacity in chronic renal failure patients managed by continuous ambulatory peritoneal dialysis, 5
Exercise capacity, the effect of inspiratory resistive training on, in optimally treated patients with severe chronic airflow limitation, 648

Fallot's pentalogy, successful total correction of, in the seventh decade of life, 59
Familial syndrome of cardiac myxomas, myxoid neurofibromata, cutaneous pigmented lesions, and endocrine abnormalities, 393
Fiji and the South Pacific, medical education in, 304

Gastrointestinal hemorrhage patients, ten year follow-up of, 33
Genetics of diabetes mellitus, 419
Giardia infection causes vitamin B12 deficiency, 78
Glomerulonephritis, plasma exchange in the treatment of, 828
Gold thiomalate therapy for rheumatoid arthritis, hepatitis and neutropenia secondary to, 72
Gordon's syndrome, the syndrome of hypertension and hyperkalemia with normal glomerular filtration rate, 183, 221
Graves' disease and hypothyroidism after mantle irradiation: a follow up study, 347

Health care in the Asian Pacific Region, RACP Seminar (Supplement), 279
Heart failure, refractory, and combined spironolactone and converting-enzyme inhibitor therapy, 61
Heart, normal, anatomical and echocardiographic correlations in the, 517
Heat sterilisation to inactivate AIDS virus in lyophilised factor VIII (Letter), 413
Hematological malignancy, the intraventricular reservoir in the treatment of neurological disease secondary to, 373
Hemochromatosis, prevalence of, in a random sample of asymptomatic men, 491
Hemodynamic and plasma renin responses to treatment of a renal arteriovenous shunt, 1
Hemorrhage, 'missed', and cerebral aneurysms, 486
Hemorrhagic esophagitis, long term management of, with cimetidine and omeprazole, 226
Heparin, platelet proaggregating effect of, 715
Heparin-induced thrombocytopenia and thrombosis, use of Org 10172 in the treatment of (Letter), 719
Hepatic failure, fulminant, zinc abnormalities in (Letter), 415
Hepatic or renal dysfunction, anomalous serum digoxin concentrations in patients with, 241
Hepatic vein occlusion (Budd-Chiari syndrome): problems in diagnosis and management, 28
Hepatitis B virus exposure, prevalence of, in patients disclosing a past history of hepatitis infection, 237
Hepatitis and neutropenia secondary to gold thiomalate therapy for rheumatoid arthritis, 72
Hepatitis infection, the prevalence of hepatitis B virus exposure in patients disclosing a past history of, 237
Hepatitis, chronic, pathogenesis and treatment, 101
Hickman catheters, complications associated with indwelling venous, in patients with hematological disorders, 211
Histiocytic necrotizing lymphadenitis (Kikuchi's disease), 711
Histoplasmosis, disseminated, 66
Hodgkin's disease and fatty liver (Letter), 515
Hodgkin's disease, a viral etiology for?, 823
Homosexual practice, effect of ano-receptive, on T lymphocytes and delayed hypersensitivity in transsexuals, 757
Hong Kong, postgraduate training in internal medicine in, 285
Hormone, clinical experiences with human parathyroid hormone 1-34, 794
House dust mites and skin tests in different Australian localities, 639
Human parathyroid hormone 1-34, clinical experiences with, 794
Hypercalcemia during resolution of acute renal failure associated with rhabdomyolysis: evidence for suppression of parathyroid hormone and calcitriol, 506
Hypercalciuria, childhood idiopathic, cellulose phosphate and chlorothiazide, 43
Hyperkalemia and hypertension (type II pseudohypoaldosteronism), treatment of mineralocorticoid-resistant renal, 183, 221
Hypertension and hyperkalemia, the syndrome of, with normal glomerular filtration rate, 183, 221
Hypertension, essential, effects of enalapril and hydrochlorothiazide on blood pressure, renin-angiotensin system, and atrial natriuretic factor in, 475
Hyperventilation of cold dry air, reproducibility of, in children with cystic fibrosis, 644
Hypothyroidism and Graves' disease after mantle irradiation: a follow up study, 347

IgA kappa multiple myeloma and lymphadenopathy syndrome associated with AIDS virus infection, 402
Immune complex disease, complement and, 268
Immunological reconstitution in a patient with severe combined immune deficiency using non-sibling bone marrow depleted of T cells with HuLy-m1, 385
Indonesia, the role of internal medicine in health care in, 297
Inhibition of complement-mediated solubilisation of antigen-antibody complexes by serum factor(s) in patients with various connective tissue diseases, 445

Inobvious stroke: a cause of delirium and dementia, 771
Inspiratory resistive training, effect of, on exercise capacity in optimally treated patients with severe chronic airflow limitation, 648
Insulin, purified porcine, comparison with semisynthetic human insulin in newly treated diabetic subjects, 206
Insulin, semisynthetic human, a comparative double-blind trial of the effectiveness and antigenicity of, and purified porcine insulin in newly treated diabetic subjects, 206
Interactions between non-steroidal anti-inflammatory drugs and antihypertensives and diuretics, 537
Interferon, alpha, the evolving role of, in the treatment of malignancies, 425
Intravenous drug users, exposure of, to AIDS retrovirus, Sydney, 1985, 686
Intraventricular reservoir in the treatment of neurological disease secondary to hematological malignancy: an eight year experience, 373
Ipsilateral motor seizures, 234

Kidney donation, protein loading test before and after, 691

Laser photoradiation therapy for tracheobronchial amyloid, 229
Lead nephropathy, chronic, in Queensland: alternative methods of diagnosis, 11
